### OUR SMOKING POLICY

At St. Croix Plastic Surgery & MediSpa we strive each day to make our patient's healthcare experience the best it can be. Your health and well-being is very important to us; for that reason, ***SMOKING IS ABSOLUTELY PROHIBITED both before and after surgery***. Smoking can cause delayed wound healing, death of skin or tissue and increased risk of infection. Please also be aware that second-hand smoke (other people smoking in your home) can cause the same problems.

Any patient with a history of smoking will be given urine test at their pre-operative appointment and the day of surgery to verify that they are smoke free. **PATIENTS WHO FAIL TO STOP SMOKING WILL HAVE THEIR PROCEDURE CANCELLED AND WILL FORFEIT THEIR SURGERY DEPOSIT (\$500.00).**

Our policies may appear to be quite strict, but your health and well-being is very important to us. We want your recovery after enhancing your appearance to be smooth and uneventful. We very much appreciate your cooperation and understanding.

Please do not hesitate to call us at any time if you have questions or require additional information. Thank you for choosing us to provide your plastic surgery care. We are committed to providing you with the optimal cosmetic surgery experience.
